

Mitcham Common Trees Works 2 2025

Works Specification:

Mitcham Croydon Road 1 Map

Location Number 1: Lime and occasional Hawthorn and Oak trees overhanging footpath, cut back all overhanging branches to height of 3-4m.

Location Number 2: By Memorial. Fell dead (marked) tree and cut back low hanging oak branch to main fork.

Location Number 3: 25m from L/C 015. Fell dying (marked) Elder.

Location Number 4: Near L/C 018. Fallen White Poplar (marked) with branches encroaching on edge of footpath. Cut back branches to fallen trunk.

Location Number 5: Near L/C 020. Two White Poplars with low branches overhanging footpath, lift branches to approx. 5m. over footpath.

Location Number 6: Next to L/C 021. Fallen dead braches (marked) encroaching of edge of highway, cut back.

Location Number 7: Near L/C 022. White Poplar with damaged branches. Clear broken branch and cut back other branch to tear.

Location Number 8: From L/C 024 (by tree monolith) to Windmill Rd Junction. Branches overhanging footpath and obscuring sightline. Cut back overhanging branches to a height of approx. 5m.

All cut material can be chipped on-site

Mitcham Croydon Road 2 Map

Location Number 1: Opp Bus Stop. Fell circa 15 Poplar/Acer/Ash suckers etc (all marked). Fell 2 (circa 100mm dia) Poplars (marked). Re-coppice multi-stemmed Willow (marked) and clear Acer hanger.

Location Number 2: Near L/C 30. Reduce Poplar (marked) by 4m and remove branch overhanging footpath/highway.

Location Number 3: By previously felled Poplars. Fell small Acers (marked)

Location Number 4: Opp L/C 031. Fell small Acer (marked). Reduce Poplar (behind Acer) by 4m (marked). Re-coppice Willow (marked).

Location Number 5: By L/C 032. Clear/coppice 2 Willows and Elder (marked).

Location Number 6: Opp L/C 35? Clear hanger in Elder and reduce dying Poplar (behind Elder) to 4m monolith (both marked)

Location Number 7: From L/C 036-038. Clear/fell all Poplar/Acer/Ash suckers (circa 75 not marked) of up to 50mm dia in 5m wide zone from footpath.

Location Number 8: Near L/C 40 behind ivy-clad footpath. 3-4 trees with low branches overhanging footpath. Lift lower branches by up to 4m.

All cut material can be chipped on-site

Location Number 9: Watneys Rd behind L/C 3. Fell snapped Poplar and nearby leaning Poplar (both marked). Clear hanger from mature Acer.

NB. Vehicle access (chipper) may not be possible to Watneys Rd in which case access from the Common and material can be stacked into habitat piles.

All above works to be completed by December 2025.

Please provide a quote for the above works.
